

Workshops for adults

Does your group, party or organisation want a fun, creative evening or afternoon?

I can provide a one-off session for you, tailored to your wants or needs. Possibilities include: sessions on painterly printmaking without a press, making collograph prints or using everyday items to make stamps and prints.

Artwork made on a previous course

The session can focus on a specific project like making seasonal cards, bags, stationery and/or could emphasise certain ideas like making prints from recycled materials for example.

The workshop can also be used as a a crafty party where guests can make their own decorations, cards, wrapping paper, wedding favours, stationery or invites and presents for a special occasion.

Previous course participants

I can also provide children's workshops and have an enhanced CRB certificate.

Please contact me to talk about your idea or project.
